Re: Reclamation of Green Beetle Quarry

Dear Mr. Bown:

Thank you for meeting with Grace Jensen on January 7, 2004 to discuss reclamation of the Green Beetle Quarry in Box Elder County.

Through conversation in this meeting, we understand you will have the Pit #1 Green Beetle reseeded by late October, 2004. We will coordinate this reclamation with Lynn Kunzler from UDOGM.

In addition, we discussed your existing road right-of-way (UTU-75640). This right-of-way grants access to other quarry areas you mine. It is mandatory that all equipment stay on the existing road right-of-way and not travel 'cross-country' on the public lands to your mining areas.

At your earliest convenience, please submit the application for the mill site you are interested in obtaining in the Grouse Creek Area. A map and plan of development should accompany the application. This mill site will not be authorized until the reclamation on Green Beetle is complete. However, we will process the application so it can be authorized when the time comes.

Thank you for your continued effort to comply with the public land laws. Questions concerning this letter should be directed to Grace Jensen at 801-977-4372.

Sincerely,

/S/ MICHAEL G. NELSON

We are getting close to being ready to issue a decision on your application for an access road to a proposed rock quarry near Rosebud, Box Elder County.

I will process the case to the point of issuing the right-of-way grant, but will then wait until reclamation of the old quarry site on the hill where Lynn Kunzler and I met with you has been completed.

I will wait until you inform us that the reclamation has been completed as agreed upon and we have approved it before we issue the right-of-way for the new road.

Please give me a call at (801) 977-4355 and let me know the projected completion of this work.

sincerely.

/s/ Michael G. Nelson

Re: Access Road Right-of-way

Dear Mr. Bown:

Enclosed are two copies of a right-of-way offer (BLM Form 2800-14) for your proposed access road, serial number U-75640. Please review the offer carefully to see that you agree with all terms and conditions stated, sign both copies on the left side of the grant form as indicated, and return both copies to the address shown above.

The ROW permit will require an annual rental in accordance with the regulations found at 43 CFR 2803. This amount has been determined to be \$18.31. The total rental until the termination of the grant in 2005 is \$102.23. Please return this amount with the signed grant forms.

This ROW permit and the authority to use the lands described in the document becomes effective on the date it is signed by an authorized officer of the BLM. The authorized officer will sign the ROW grant once the signed grant forms have been returned along with the annual rental amount shown above and evidence of your reclamation bond as stated in Special Stipulation #6.

You are allowed 30 days from receipt of this offer in which to submit the executed ROW permit. If this requirement is not met, the application may be denied.

If you have any questions, please contact Mike Nelson at (801) 977-4355.

Sincerely,

/S/ MICHAEL G. NELSON
